

## Switch Box(Screw Open-Close Type)

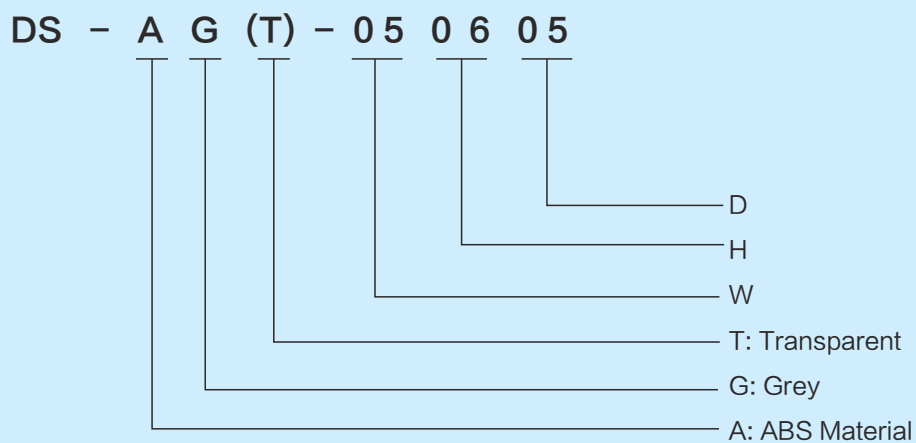

### Product overview

### product features

- 1: The product has the characteristics of firm design, light weight, easy handling and operation, wear resistance, long life and good insulation.
- 2: The product adopts high-strength impact-resistant materials, which can bear a stronger load than ordinary products, so as to avoid breakage during use by customers.
- 3: The product has undergone strict quality inspection, and its waterproof and dustproof grade has reached IP66 (test report available on request).
- 4: Suitable for airports, subway stations, button boxes, small terminals, signal boxes, relays, sensors, meters, communication junction boxes and other equipment.

### Description of product model

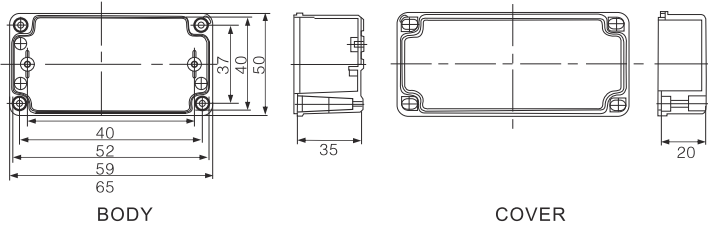

# Switch Box(Screw Open-Close Type)

CE RoHS IP66 IK08 Product size

Dimension(Allowable error: ± 1mm)

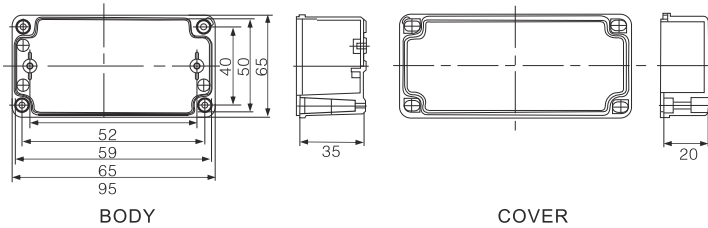

DSAG-050605

Width × Height × Depth: 50 × 65 × 55(mm)

Dimension(Allowable error: ± 1mm)

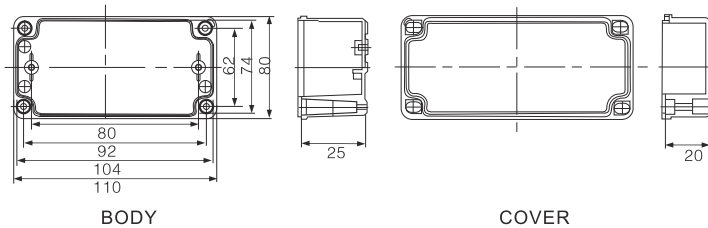

DSAG-060905
